

Welcome to the NGC Global Network

New Global Citizens has long heard from Teams asking for more direct communication and information from their chosen Global Project. This program year, contact with NGC Global Projects is a key feature of the team experience for all NGC Teams.

We are very excited to invite you to be a member of the NGC Global Network through WiserEarth. WiserEarth is a free-to-use, non-commercial, online community space developed for individuals and groups working to create a more just and sustainable world.

Our vision is to use this unique site to establish an environment for NGC Teams and Global Projects to connect, share experiences, and discuss both solutions and set-backs to the world's greatest challenges.

We are launching the NGC Global Network January 2010 and we need your participation to realize this vision.
